

MARY SYAMALA

(903) 990-7171 | marysyamala0707@gmail.com | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Business and analytics professional with over 3+ years of strong communication and stakeholder skills. Skilled at simplifying complex data and supporting fast-paced, client-focused, data-driven decisions.

EXPERIENCE

Software Engineer | InCom Technologies

February 2025 – Present

- Extracted, transformed operational and financial data to support KPI reporting, spend analysis, and business performance insights.
- Built interactive Power BI and Tableau dashboards to track KPIs, operational metrics, and financial trends for decision-making.
- Designed and optimized ETL workflows with validation and reconciliation checks to improve data accuracy and reliability.
- Automated API-based data pipelines and optimize workflows, reducing processing time by 25% and improving reporting efficiency.
- Partnered with cross-functional stakeholders to gather requirements, analyze trends, and deliver actionable insights supporting business decisions.

Data Analyst | Advanced Knowledge Tech

October 2023 – January 2025

- Built Power BI dashboards tracking KPIs and vendor performance, improving visibility and reducing issue detection time by 30%.
- Analyzed operational and financial data using SQL and Excel, identifying inefficiencies and supporting 10% cost-reduction.
- Automated ETL, validation, and audit workflows using Python, SQL, and APIs, reducing manual reporting effort by 40%.
- Translated stakeholder requirements into BRDs, workflows, and user stories, ensuring clear requirements and implementation.
- Conducted data profiling and quality analysis to identify anomalies, missing values, and inconsistencies, improving reporting accuracy and data reliability.

Junior Data Analyst | DXC Technology

January 2020 – May 2022

- Extracted, cleaned, and analyzed 100K+ daily records using SQL, Python, and Excel to support operational and vendor reporting.
- Performed trend, variance, and cost analysis to identify inefficiencies and deliver actionable recommendations for improvements.
- Built Power BI and Tableau dashboards to track KPIs, financial metrics, and operational performance for decision-making.
- Built and validated ETL pipelines, performing data-quality checks to ensure accurate, consistent, and reporting-ready datasets.
- Partnered with finance and operations teams to gather requirements, improve reporting processes, and deliver actionable business insights.

EDUCATION

M.S., Business Analytics & Artificial Intelligence — *The University of Texas at Dallas*

B.Tech, Computer Science & Engineering — *Jawaharlal Nehru Technological University, Hyderabad*

SKILLS

- | | |
|---|--|
| • Business Operations & Support | : KPI reporting, financial analysis, forecasting, process improvement, stakeholder collaboration, product-focused analytics. |
| • Analytics & Reporting | : Power BI, Tableau, KPI Dashboards, Excel, Google Analytics |
| • Programming & Scripting | : Python, SQL, PySpark, Java, ETL Automation |
| • Data Platforms & Cloud | : Google Cloud Platform (BigQuery), Microsoft Azure (data services exposure), AWS (S3, Athena), Snowflake, Databricks |
| • Databases | : SQL Server, PostgreSQL, MongoDB, Oracle |
| • ETL & Data Integration | : ETL Pipelines, Data Transformation, dbt, API/XML Integration |
| • Data Modeling & Architecture | : Star/Snowflake Schema, Data Validation, Data Quality, Reconciliation |
| • Workflow & Orchestration | : Apache Airflow, Job Scheduling, Pipeline Monitoring, Automated Workflows |
| • Infrastructure, DevOps & Systems | : Terraform (IaC), CI/CD pipelines, deployment automation, Git, BRDs, user stories, SAP, CRM systems, PowerApps |
| • Platforms & Utilities | : SSMS, JIRA, Git, Postman, ServiceNow, Wireshark, SolarWinds, Nagios |
| • Soft Skills | : Communication, teamwork, attention to detail, problem-solving, resilience |

ACADEMIC PROJECTS

- **UTD Chatbot (UT Dallas)** UTD-focused chatbot using Lang Chain, OpenAI API, and web scraping; deployed LLaMA-2-7B-Chat with prompt engineering for reliable responses.
- **Stock Market Prediction on News Sentiments (BRECW)** deep-learning and time-series model exploring data-driven investment strategies.
- **Automated Food Ordering System (BRECW)** web-based order-processing system that reduced wait times and long queues.

ENTREPRENEURSHIP, LEADERSHIP & VOLUNTEER

- Founder, myclicks_c Photography — grew to 100+ clients; running marketing, client engagement, and end-to-end delivery.
- President — Photography Club & Sports Club, BRECW; Photography Officer — Code EXE, UT Dallas.
- Captain, Under-19 Women's Cricket Team, Hyderabad Cricket Association of India; Volunteer, Amma Foundation.
